

Rocketeers: How a Visionary Band of Business Leaders, Engineers, and Pilots is Boldly Privatizing Space

“That this story is still unfolding makes it especially exciting to read. These men are still in their workshops, tinkering their way into orbit.” David Gelles, FORBES On June 21, 2004, SpaceShipOne, built by aircraft designer Burt Rutan, entered space and ushered in the commercial space age. Investment capital began to pour into the new commercial spaceflight industry. Richard Branson’s Virgin Galactic plans to ferry space tourists out of the atmosphere. Las Vegas hotelier Robert Bigelow is developing the world’s first commercial space station (i.e., space hotel). These space entrepreneurs, including Microsoft cofounder Paul Allen and Amazon.com founder Jeff Bezos, now see space as the next big thing. In *Rocketeers*, Michael Belfiore goes behind the scenes of this nascent industry, capturing its wild-west, anything-goes flavor. Likening his research to “hanging out in the Wright brothers’ barn,” Belfiore offers an inspiring and entertaining look at the people who are not afraid to make their bold dreams a reality. “The commercial space race is heating up so fast you need a cheat sheet to keep track of all the billionaires and gamblers vying to be the first private entrepreneur to blast paying customers into orbit. [Belfiore] does a stellar job introducing an intriguing cast of characters.” Mark Horowitz,

Wired—The privatization of space travel is an essential step toward realizing our cosmic destiny. In his engaging, highly readable *Rocketeers*, Michael Belfiore tells the fascinating story of the entrepreneurs who have already made it happen. —Buzz Aldrin—A riveting, you-are-there account of how this ragtag collection of innovative thinkers, brave pilots, and bold visionaries is—right now—launching one of the most exciting new industries in history. Belfiore’s eloquent writing and exhaustive reporting really bring this mysterious, secretive world to life. —Eric Adams, *Popular Science*
