

# Speed Machines

Readers will be revved up to read this fast-paced series about the world's greatest sports cars. They will explore the history of each company, including its founders and early models. Each book details the differences between the brands sports cars and cars for racing. Profiles of famous models or generations of each brand provide its history, and a fact box lists important stats about the model. Every volume contains a comparison chart, which helps students compare and contrast cars described in the text.
