

Skiing Journal for Kids

Keeping a ski diary is a great way to help you remember your ski days. By journaling your days on the slope, you can re-live that epic slope or ski run next month or ten years down the road. A skiing journal serves as a permanent record of your progress. Success can be quickly forgotten. And when it is, it becomes easy to get frustrated with your pursuit. As with any pursuit, there are times you may feel like you have not accomplished anything despite all the invested effort and energy. During those moments, it's helpful to look back and be reminded of your past successes. This journal will help you recall the details of your snowy adventures whether you are an avid downhiller, snowboarder, or cross country skier. You can look back over your journal to see how much you have progressed and start setting goals for that next black diamond slope!
