

## Wolf Storm

This is Stefan's big break. He's on location in the mountains far from home for his first movie role, filming a blockbuster sci-fi adventure. The props, the spaceships, and the trained wolves on set should add up to a dream job, but acting turns out to be much tougher than he ever imagined, and he feels like his inner loser is all that's showing through. From the way his famously stuck-up co-star, Raine, treats him, he's pretty sure she thinks so too. And worst of all, no one will believe his claim that there are wild wolves haunting the forest around the set. When a blizzard strikes, isolating the young co-stars and bringing hungry feral wolves into the open, Stefan must take on his biggest role yet—working together with his co-stars to survive. With no second takes, they only have one chance to get it right. Lights, Camera, Action! Dee Garretson takes suspense and danger to new heights with her thrilling tale of friendship and survival against all odds.
